

GROK BOT FOR RESTAURANTS

A bot team for every side of your restaurant.

Staffing, ordering, food cost, reviews, and catering, each with a specialist bot, led by a Chief of Staff. **You approve everything that goes out.**

Grok Bot vs. one-off ChatGPT or Claude chats

 **One-off chats:** a window you visit to ask questions.

 **Grok Bot:** a standing team that remembers your business, runs routines, and uses your tools.

Works with your POS

Through APIs you authorize, report emails, or exports

Square: open APIs plus Square's official MCP server for AI tools (beta), with your permission.¹

Clover: a dashboard API token or an app you authorize, plus closeout report emails.^{4,5}

Any system: emailed reports and exported spreadsheets (CSV or Excel).

Toast: read-only API access you set up (RMS Essentials or higher), or daily summary emails.^{2,3}
